

DATE

Love and marriage—one of the thresholds of life. Approaching it are the happy strides of youth. Beyond it, joy for some, sorrow for others.

And how long the world has searched for a formula that would test the quality of love . . . a standard that would assure happiness in marriage.

Until finally, with remarkable wisdom, we've begun to realize that it all depends on the individuals themselves.

But, of course, there are two individuals! How can we provide both with the qualities of character that will enrich their marriage?

The Church believes the answer lies in continuous religious training and wholesome boy and girl activities. With deep concern for the individual, the couple, and the community, it is building the character of America's youth . . . safeguarding for tomorrow as well as today the sanctity of marriage, home and family.

Have you a son or daughter? Have they a church?

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Through the Keyhole

BY MRS. ROBERT CANNON

CONGRATULATIONS and Apologies are due to the Senator play cast whose presentation of their class play on last Friday night was a roaring success. We congratulate them on their dramatic interpretation, we apologize for losing a letter they sent us containing information on the play that was to have been published last week. Since we had especially asked for this information, losing the letter was a definite breach of etiquette.

POLITICS took over the limelight last week and all conversations seemed concerned with numbers of voters and who beat whom. Of particular interest to us was George Grant's campaign to return to Washington as Representative. Being from Troy, we naturally are for Grant and we were

Smoko Says:

Only a PREPARED AMERICAN can be a STRONG AMERICAN. (Illustration of a man in a suit and hat, with the text "ROCKET FIRES WEAKEN OUR NATIONAL STRENGTH" and "Only a PREPARED AMERICAN can be a STRONG AMERICAN.")

Everyone has a stake in our future. We count on your help!

quite gratified to see him successful again. In reading the results of county races across the state, we saw that Joe Brock Gantt of Florida had won a sweeping victory in his first political race.

ADDED to this news, is the latest item, that Houghton Ben and Louise Larkins will move to Decatur in the early summer. We certainly will miss these people who add so much to our little town.

WHEAT - FLOUR IMPROVEMENTS RESEARCH DONE

AUBURN—Lipids may hold the key to your baking success. These mysterious fat-like substances in wheat flour are under research now by the U. S. Department of Agriculture. Work by the Department so far has resulted in a number of important findings about the nature of these substances and the role they play in the baking process.

According to USDA researchers, lipids in wheat flour are soluble in fat solvents, including water, and have a greasy feel. Although by weight they comprise only about 1.5 percent of flour, they greatly affect its quality, baking behavior, and storage stability.

Only about 60 to 80 percent of lipids can be easily extracted from flour. This degree of lipid removal does not hurt the flour's bread-baking properties if no shortening is used in the dough mix. However, if shortening is used, bread leaves made from extracted flour are small and hard. The reason for this is still unknown, but it shows that present-day shortening cannot replace natural wheat lipids. Removing the lipids from flour drastically reduces the loaf size and quality of bread made from it.

Lipids tend to change more rapidly than any other constituent in flour. Controlled oxidation can improve the baking properties of flour, but if oxidation changes go too far, the baked goods become rancid and lose texture and flavor, say the scientists.

Continued research by the USDA on lipids and other wheat - flour constituents are aimed at further clarification of how these substances may contribute to unexplained difficulties in commercial production of bread, cakes, cookies, and other baked goods.

Montgomery—Efforts to stimulate the sales of cotton products have been boosted with a proclamation by Governor James E. Folsom designating May 19-24 as Cotton Week in Alabama.

"Cotton plays an important role in the economy of Alabama, accounting for 29.2 percent of the farm marketings, and bringing an income of over \$13 million annually at the level," Governor Folsom said in the proclamation.

THINK TWICE If you're going to kick your heels, take your shoes off first. An estimated \$3.5 million worth of bruise damage to hogs each year can be traced to canes, whips, clubs, and kicking—when the owner has his shoes on.

Since 1940, average farm size has increased approximately 40 per cent. During the same period, investment per farm worker has increased nearly five times, while total investment per farm rose to an average of nearly \$27,000.

JET TRAVEL AGE IS SAID TO BE AROUND CORNER

The big public fanfare hasn't broken yet, but jet travel for U. S. airline passengers is just around the corner, according to the editor of Changing Times, the Kiplinger Magazine. In less than a year the first U. S. jet commercial planes will be in service, and in a year and a half nearly one third of all U. S. passengers will be flying in jet planes.

From Chicago, it will be one hour and 40 minutes to New York; three hours 50 minutes to Los Angeles; two hours 50 minutes to Miami. The New York to San Francisco travel will be able to leave at 5 p. m., dine on the plane and arrive in time for a show or an evening on the town.

You'll cruise in lavish comfort at between 550 and 600 miles per hour. Your swept-winged plane will swoosh through the air at 30,000 feet, high above weather and turbulence. Your sensation will be one of vibrationless ease, disoriented only by the whizz of the jet exhausts. Many of the planes will carry up to 150 passengers almost twice the number who fly on the mammoth DC-7s.

The major jets in the sky will be the Douglas DC-8, Boeing 707 and Convair-580. Some will be for short and medium range trips. Others, such as the Boeing Intercontinental, will span the oceans. So fast and so large will be these planes, a single one will do the work of four passenger trains or 60 buses.

Once the airlines recover the billions spent on the new planes, many economies may show up on the fares you pay. New jets will be able to fly passengers at a lower cost than existing planes because of their speed and capacity. About 60,000,000 passengers will fly in jets and other planes in 1960. Airlines will chalk up close to 35 billion miles. For an eye-opening comparison, note the 1950 figures: 17,000,000 passengers; 8 billion passenger miles.

TREES VALUED HOUSE ASSET IN MANY WAYS

AUBURN—One of the first things a homemaker looks for on a prospective lot is trees. For trees are probably the most important feature in providing an attractive setting for a house.

In Auburn this week, API Extension Ornamental Horticulturist Troy Keable advised homeowners planning to set out trees to plant large shade trees at the back or sides of the house. This way, explained, they'll provide an attractive backdrop and side curtains, and your house will be the center of attention of passers-by.

Large trees are especially useful behind rambling, modern houses to soften roof lines, said the specialist. When choosing trees for the front of the building, be careful to choose size and species to complement, and not hide the house.

Homeowners who would like to improve the appearance of their landscapes might remember that overplanted and cluttered effects can be overcome by removing some trees and large shrubs, or by removing lower branches of trees that obscure a view.

Established nurserymen in your area can give valuable advice about the best species to plant where you live, their ultimate size and shape, and the best position on your property to obtain the effect you want.

About one-third of the cotton grown in the U. S. is exported.

GAS DISTRICT THOUGHT TO BE TOPS IN WORLD

It was an ambitious dream ten years ago, and a set of blueprints five years ago, but today the Southeast Alabama Gas District plays a key role in the industrial development of 24 Southeast Alabama cities.

The district, a \$19,500,000 utility which is believed to be the world's largest municipal gas district, began delivering natural gas in August, 1955. Its first customer was a dry-cleaning shop in Laverne.

Today, the overwhelming majority of major industries, 25 in all, in a vast 10-county area are natural gas customers, consuming over a billion and a half cubic feet of gas every year. In addition, the district serves 23 seasonal industrial plants, such as cotton gins, seed drying plants, etc. In the fiscal year which ended March 31, seasonal industries consumed 11,261,000 cubic feet of gas.

One hundred commercial customers burned 312,574,000 cubic feet during the fiscal year just ended. And approximately 19,500 domestic meters measured nearly a billion and a quarter cubic feet of "nature's miracle fuel" into homes for heating, cooking, water heating, refrigeration and other household services.

Housing Authorities in Dothan, Opp, Laverne, Ozark and Bufada are important gas district customers.

NATURE'S LOVING PROXY, THE WATCHFUL MOTHER

Babies are little tots who need much love and care. Fortunately, God gives us Mothers to watch over them. Mother's problems are difficult, but we can solve some of them. We supply special foods for baby's dietary needs, sterilizing utensils to prevent germ infections, helpful baby aids that insure more comfort and vitamin concentrates for extra energy.

Most important of all, Mothers can now have less fear should any attacking virus threaten baby's health. In our pharmacy are the wonderful anti-biotics physicians prescribe, that often overnight bring back baby's health.

SOIL CONSERVATION NEWS

By T. C. Self and Joe Wildman, S.C.S.

R. D. Dawkins of Perry store community had considerable watered growth in his new pond. Mr. Dawkins asked personnel of the Soil Conservation Service to assist him in eradicating this weed growth.

Waterweed and other growth is undesirable in a fishpond. The growth hinders fishing; provides breeding grounds for mosquitoes; looks ugly and does not provide any food for fish. Small beam can hide from the bass which may contribute to an overstocked condition.

Decaying waterweed also give off an unpleasant odor.

Waterweed and lilies can be controlled in fish ponds. Generally speaking deep water and dark fertile water prevents plant growth. This is due to little or no sunlight getting to the plants. Proper fertilization will usually give sufficient color to the water. Surface plants can be sprayed with 2-4-D mixture or 2-4-5T mixture. Waterlilies can be eliminated by cutting the tops several times during the year. This starves the roots and eventually kills them. Deepening the waterline will help rid the pond of sparrow.

U. S. Production of vegetables this year is expected to be 15 per cent below last year's figures.

GO TO CHURCH SUNDAY

My Heartfelt Thanks

I only wish I could meet every one of you to express my thanks for the overwhelming vote of confidence you have given me for my years of service as your Probate Judge. I regret that the duties of my office keep me from calling upon all of you, but I want to invite you to call upon me, not only to accept my thanks, but to offer any suggestions that will help me to continue to merit your confidence. Again, my heartfelt thanks.

Judge J. O. English
(Paid Advertisement)

I Am Deeply Grateful...

... yet with a gratitude mingled with humility at the resounding vote of confidence you have given me in reward for my services as your sheriff. I know it is impossible for any man in public office to please everyone but I am glad to know that those whom I have pleased with my duties are such a majority. My doors are open to an understanding discussion with those who are not pleased. I shall continue to try to merit the confidence of the public.

Dr. and Mrs. Robert Bryan and children of Birmingham and Mr. and Mrs. Tom Bryan and son of Jasper spent the weekend with Mr. and Mrs. Baxter Bryan.

Mr. and Mrs. Zig Banks and children of Andalusia and Mr. and Mrs. Joe Chambers and children of Brantley were visitors to Mr. and Mrs. J. Doug Kendrick Sunday.

SHOULD REPAIR TREE DAMAGES WITHOUT DELAY

Auburn—Hard winter and spring storms have left behind a large crop of broken and splintered branches this year. In Auburn this week, API Extension Forester Ike Martin urged tree owners to repair the damage themselves while the weather is mild. Once decay or infection sets in, he explained, help of a professional arborist is usually required or the tree may be needlessly lost.

Broken or split branches should be removed flush with the trunk or the nearest large limb, Martin said. Make a clean cut and leave no stub that will prevent callus from growing over the wound. The shape of a bark wound has a marked effect upon how fast it will heal, he explained. In general, wounds should be streamlined to a vertical almond shape with no jagged edges.

To avoid tearing the bark in removing a heavy limb, Martin suggested making two preliminary cuts before removing the limb.

Kimmy and Kenneth Dyess of Troy State Teachers College spent the weekend with their parents, Mr. and Mrs. Dyess.

Paul Miles of the University of Alabama spent the weekend with his parents, Mr. and Mrs. Paxton Miles.

Lolita Harper, Fred Harper Jr., and Marion were visitors to Montgomery Saturday.

Mr. and Mrs. W. T. Whitman, Sr. of Troy were visitors here last Tuesday.

Mr. and Mrs. Hoyt Williams and children of Andalusia and Mr. and Mrs. John Wilkerson, Jr. and daughter of Dothan spent the weekend with Mrs. Estelle Wilkerson.

DELEGATE

54 SENIORS TO BID FAREWELL TO ELBA HIGH
Four years of high school will come to a close tomorrow, May 23, at 8 p.m. when 54 Elba seniors will receive diplomas.

Baccalaureate ceremonies were held Sunday evening with Rev. Frank Lindsey, pastor of the County Line Baptist Church near Enterprise and an Elba High graduate, delivering the baccalaureate address.

Dr. Theron E. Montgomery, dean of Jacksonville State College, Jacksonville, Ala., will deliver the commencement address tomorrow.

Members of the graduating class are: Frances Barlow, Geraldine Barrett, Mrs. Frances Bradshaw, Emily Burkett, Sue Carmichael, Nancy Carney, James Crocker, Juanita Fuller, Lou Ellen Henderson, Mrs. Betty Holley, Verne Hudson, Boots Jacob, Mrs. Christine Johnson, Brunese Jones, Judy Larkins, Mable Marler, Mrs. Betty S. Morrow, Sue Morrow, Mrs. Jo Anne Rachel, Mrs. Jane Smart, Mary Spinks, June Stevens, Marie Thomas, Ann Vaughan.

Carolyn Watson, Cleone Willis, Terry Brooks, Harvey Griffin, Jimmy Brooks, Paul Hudson, Grover Jacobs, Bobby Johnson, Charles Jones, Dwight Kelley, Paul King, Jimmy Macon, Charles Mauldin, Johnny Miller, Marion Morrow, Paul Smith, Jerry Sparlin, Charles Taylor, James Walker, Ronnie Williams, all of Elba.

Mrs. Margaret Crook, Mary Cowen, Carolyn Deal, Mrs. Jan Senn, Erma Lee Shiver, all of Jack.

Sac Fulming of Route 3, Opp; Annie Bell of Route 1, Glenwood; Raymond Danford of Route 1, New Brockton.

Seventeen seniors will receive diplomas in graduation exercises tonight at 8 p.m. at Zion Chapel with Floy Lowery, valedictorian and Peggy Ann Fuller salutatorian.

Dr. Emmett Kilpatrick, head of the English and Foreign Language department at Troy State College, will deliver the graduation address.

The graduates are, in addition to Miss Lowery and Fuller: Sylvia Ogburn, Merlene Car, Mary Loy Boswell, Jim Croft, Burtwell, Barbara Ann Smith, Betty Jean Smith, Julia Mae Harrison, Ralph "Buddy" Carr, Johnnie Zear, Jerry Free, Jack Croft, Jackie Bell, Jessie James, Aaron Simmons and Donald McDermott.

HOWARD TENNIS TEAM WINS 22 WITH 2 LOSSES

BE READY FOR SPRING PESTS AND DISEASES

AUBURN—Would you be willing to spend one dollar if you knew you could get four in return?

Farmer who carry out a good program of insect and disease control on truck crops usually do just that. Practical every truck crop grown in Alabama is subject to attack by one or more pests, and a good control program is the only way a grower can expect to harvest a crop that will give him top net returns.

API Extension Horticulturist John Bigby explained that this doesn't mean the grower can use just any material to control garden pests. Pest control materials, like any other farm tool or practice, must be properly used to obtain best results.

Some pests, such as wire worms and nematodes, live in the soil and attack the roots of plants. Control of these insects requires chemical applications to the soil. Pests that attack plant leaves and fruit are best controlled by spraying.

Some important points in planning a spray or dust program are:

(1) Use the right material. If you are not sure of this, check with your county agent. Be sure to read the label and use materials as directed.

(2) Apply materials at the right time. In most cases, sprays or dusts must be applied before the insects or disease appears.

(3) Repeat applications regularly to protect new growth on plants.

(4) Do a good job of covering all parts of the plants.

Huntingdon Class To Finish May 25
Montgomery—Commencement exercises closing the 104th year of Huntingdon College will be held Sunday and Monday, May 25 and 26.

The baccalaureate sermon will be preached at 11 a.m. Sunday in the First Methodist Church by Dr. H. L. Lawrence Dill, Jr., superintendent of the Birmingham District, North Alabama Conference of the Methodist Church.

President and Mrs. Hubert Searcy will entertain the members of the graduating class and their families at a reception in their home from 5:30 to 6:30 Sunday afternoon.

The commencement address will be delivered in the college chapel at 10:30 a.m. Monday by Dr. Henry King Stanford, president of Birmingham-Southern College.

Soldier From Elba Finishes Training
Fort Bliss, Tex.—Pvt. George W. Johnson Jr., 23, whose parents live on Route 3, Elba, Ala., recently completed the final phase of six months active military training under the Reserve Forces Act program at Fort Bliss, Tex.

Johnson, a 1952 graduate of Elba High School, attended Alabama Polytechnic Institute before starting his RFA training.

Titles of the song composed by Bob Hooks, also of St. Petersburg, are "Daddy, Let Me Go" and "Spunkin'."

Anita is well known in music circles in St. Petersburg and has appeared at the Craft Village Theatre there. She has been singing since she was two years old.

Elba High Orchestra

The Elba High orchestra, under direction of Robert Hall, is seen here in a recent program at Elba High School auditorium. Mrs. Morrow, chairman, was this year's recipient of pin and certificate for "outstanding achievement in leadership and musical ability."

BUSINESS FIRMS ARE INVITED TO SELL TO U. S.

Business firms of Coffee County were urged by the Atlanta field office of the United States Department of Commerce to give more consideration to the purchasing program of the Department of Defense as a means of stimulating the business economy of this section.

Information received here from Merrill C. Lofton, field manager of the United States Department of Commerce in Atlanta, pointed out that each year the Federal Government buys millions of dollars worth of goods and services in this State, ranging from foods to heavy durable goods, and that there is no reason why firms in this area cannot participate in the purchasing program if they manufacture or otherwise produce goods and services that the government can use.

The U. S. Department of Commerce each year works out a list of goods and services for which the government is in the market for prime contractors, and also in the same publication lists the goods and services just bought for sub-contracting purposes, which is available through this office on a subscription basis," Mr. Lofton said.

"We have just arranged for this listing to be sent air mail to those desiring quicker service. I suggest that those business firms interested in receiving these lists contact the Atlanta Field Office of the U. S. Department of Commerce, 604 Volunteer Building, Atlanta, for further information."

SURVEY OF PEA RIVER URGED BY JOHN SPARKMAN
Washington, D.C.—Senator John Sparkman urged the first of a series of appearances in behalf of funds for three vital Alabama Waterway projects before sub-committee of the House Committee on Appropriations.

The local boys left Elba at 3:30 p.m. Friday. They were in camp until Saturday afternoon. At frequent intervals, inspections were made of the different troops by the Council.

In ceremonies held Saturday afternoon, Troop 37 was awarded the Presidential Award for the best campers during the two-day camporee. This award was the first of its kind given by the local council.

Attending the camp were Scoutmaster Robert Cooper, Assistant Scoutmaster, Noel Norman, Senior Patrol Leader, Sammy Carter, Patrol Leaders, Robert Russell, Bert Casey, Lee Mount, and Scouts Mike Casey, Johnny Jones, Johnny Rudd, Bobby Cooper, John Bowell and John Norman.

CORBITT MAKES HONOR SOCIETY FOR ENGINEERS
James "Jim" H. Corbitt, the son of Mr. and Mrs. Emory H. Corbitt, Elba, Alabama, was elected and initiated a member of the National Engineering Honor Society, Tau Beta Pi, in the Alabama Alpha Chapter at Auburn, Alabama, Friday night, May 23.

The purpose of Tau Beta Pi is to mark in a fitting manner those who have conferred honor upon their Alma Mater with high grades of scholarship and character as undergraduates and to foster a spirit of liberal culture in the engineering schools of America.

Jim is a Senior at Auburn in the School of Chemical Engineering and will receive his diploma in January, 1959. Before entering in the Fall of 1956, he was graduated from Hines Junior College, Raymond, Mississippi.

TRAILERS MADE BY DORSEY GAIN IN POPULARITY
Products of Dorsey Trailers, Inc., are gaining in popularity. The current issue of Dorsey News quotes a survey made by the business magazine Nation's Business as showing that greater customer preference is shown for trailers made by Dorsey.

"This all means that the future for Dorsey Trailers is even better than our remarkable past," the News comments.

NEW DEGREE
University, Ala.—The University of Alabama now offers a Ph. D. program in Psychology. Dr. A. B. Moore, dean of the UA Graduate School announced last week.

Funeral services were held at the Brantley Methodist Church with the Rev. R. L. Bonney and the Rev. Bill Ray officiating. Burial was in the Brantley cemetery.

GOSPEL SING
An old fashioned Gospel Sing will be held Sunday from 2 to 3 p.m. at the Horoville Baptist Church. Rev. Ben Benson will preach at regular morning and evening services.

To The Citizens Of Coffee County

Since it is impossible to express my appreciation to each of you personally for the active support and vote received for Circuit Clerk on May 6, I take this means to say, "THANK YOU."

I shall always be grateful, and pledge to you my very best efforts to perform every duty of this office in a manner that will merit the confidence you have placed in me.

SINCERELY YOURS,
GLADYS CLARK
(Paid Political Advertisement by Gladys Clark.)

My Heartfelt Thanks!

As long as I live I will never forget the vote of confidence you gave me on May 6th.

Your vote was convincing evidence that the will of our whole people is for:

HONESTY AND DECENCY IN GOVERNMENT.
MAINTENANCE OF OUR RACIAL WAY OF LIFE.

RESOLUTE ACTION AGAINST THE LOAN SHARKS, THE GRAFFERS AND CORRUPTIONISTS.

ADVANCEMENT OF OUR STATE ON EVERY FRONT.

Those are the big things for which I have fought as your Attorney General. They will be my foremost aims as your Governor.

In the run off election on June 3rd, I ask that you help me finish the job. And when I become your Governor I hope that you — and all the people of our State — will stand by my side.

Thank you again . . . and again.

JOHN PATTERSON
